Defined Contribution (DC) Plans

- Function like savings accounts.
- Funds are more portable.
- Stabilizes states' costs for new hires.
- Risks and responsibilities shifted to employee:
 - Risk of losing funds with investment fluctuations.
 - No guaranteed rate of return.
 - Employee must (usually) choose:
 - Employee contribution amount (risk of saving too little);
 - Among investment options.
- Administrative & investment costs are generally higher than with DB plans.
